

What is Family Driven Care??

"Family Driven" means families have a primary decision making role in the care of their own Children as well as the policies and procedures governing care for all Children in their community, state, tribe, territory, and nation.* This includes:

- * Choosing supports, services, and providers
- × Setting goals
- * Designing and implementing programs
- Monitoring outcomes
- Partnering in funding decisions
- Determining the effectiveness of all efforts to promote the mental health and well being of children and youth

The Children's Mental Health Waiver Program is designed to support family driven care in all areas listed above!

Families and youth will be given accurate, understandable, and complete information necessary to set goals and to make choices for improved planning for their children and families.

Families, youth, providers, and the Waiver Program's management will embrace the concept of shared decision-making and responsibility for outcomes.
